

For NCTQ's analysis, the salary schedule (schedule P found on p. 17 (pdf)) was used. To calculate the annual salary, the hourly rate was multiplied by 8 hours (the length of the work day as found on pp. 8-12 (pdf)) and that sum was multiplied by 198 days (the length of the teacher work year as found on pp. 8-12 (pdf)). In addition, for NCTQ's analysis of 2020-2021 salary schedules, this 2019-2020 salary document was used again, as it remained posted on the district's website as of April 23, 2021. NCTQ's policy is to analyze salary schedules posted as of January 1, 2021.
