# Teacher Policy Strengths and Areas for Growth Ohio

POLICY AREA	OHIO'S STRENGTHS	OHIO'S OPPORTUNITIES FOR GROWTH
<b>AREA 1: GENERAL TEACHER PREPARATION</b>		
Program Entry		The state should require that all teacher preparation programs limit admission to applicants with either a minimum 3.0 GPA or those who have scored in the top half of all college-going students on tests of academic proficiency.
Teacher Shortages and Surpluses	The state publishes teacher production data and connects program completion, certification, and district hiring statistics.	
Program Performance Measures	The state connects program graduates' student growth data to their teacher preparation programs.	
Program Reporting Requirements		The state should hold teacher preparation programs accountable for teacher quality by outlining consequences for programs that do not meet standards, including loss of program approval.
Student Teaching/ Clinical Practice		The state should require that cooperating teachers are selected based on evidence of effectiveness and that the clinical practice experience takes place in the setting of the license sought.
<b>AREA 2: ELEMENTARY TEACHER PREPARATION</b>		
Content Knowledge		The state should require elementary teacher candidates to pass a content test with individually scored subtests in each of the core content areas and to complete a content specialization in an academic subject area.
Teaching Mathematics		The state should require all elementary teacher candidates to pass a rigorous elementary math content exam in order to attain licensure.
Teaching Reading	The state requires that: elementary teacher candidates pass a science of reading test to ensure knowledge of effective reading instruction, teacher preparation programs address this critical topic, and candidates are prepared to meet the instructional shifts associated with college- and career-readiness standards.	
Licensure Deficiencies	Not applicable; the state's early childhood certification, which allows candidates to teach from grades PreK-3, is the de facto license to teach elementary grades.	
<b>AREA 3: SECONDARY TEACHER PREPARATION</b>		
Middle School Content Knowledge	The state requires middle school teachers to pass a rigorous single-subject content test.	
Middle School Licensure Deficiencies	The state does not allow middle school teachers to teach on a K-8 generalist license.	
Adolescent Literacy		The state should require that all middle school and secondary candidates are fully prepared to meet the instructional shifts associated with college- and career-readiness standards.
Secondary Content Knowledge	The state requires all secondary teachers to pass a single-subject content test as a condition of initial licensure and to add an endorsement to an existing license.	
Secondary Licensure Deficiencies		The state should require secondary general science teachers and secondary social studies teachers to pass a single-subject content test for each discipline they are licensed to teach.
<b>AREA 4: SPECIAL EDUCATION TEACHER PREPARATION</b>		
Content Knowledge		The state should require elementary special education teachers to pass the same content test as general elementary education teachers and that secondary special education teachers demonstrate content knowledge in core subjects at the secondary level.

Teaching Reading	The state requires elementary special education candidates to pass a rigorous assessment in the science of reading instruction.	
Licensure Deficiencies		The state should require elementary or secondary special education certification.
<b>AREA 5: ALTERNATE ROUTE TEACHER PREPARATION</b>		
Program Entry	The state requires all alternate route candidates to pass a subject-matter test prior to admission.	
Preparation for the Classroom	The state's alternate route programs prepare new teachers for the classroom through manageable and relevant coursework and intensive mentoring support.	
<b>AREA 6: HIRING</b>		
Requirements for Out-of-State Teachers	The state requires out-of-state teachers to meet the state's testing requirements, undergo full criminal background checks, and be eligible for standard licenses without unnecessary requirements.	
Provisional and Emergency Licensure	The state does not grant emergency or provisional licenses for more than one year.	
<b>AREA 7: TEACHER AND PRINCIPAL EVALUATION</b>		
Measures of Student Growth		The state should ensure objective evidence of student growth is the determinative factor in teacher evaluations.
Measures of Professional Practice	The state requires that all teacher evaluations include observations, and be conducted by trained and certified teacher evaluators; student survey data and multiple observers are explicitly allowed.	
Frequency of Evaluation and Observation	The state requires that all teachers are evaluated annually.	
Linking Evaluation to Professional Growth	The state requires that teachers are supported with aligned professional development and improvement plans (for ineffective teachers), under a system with four rating categories.	
Data Systems Needed for Evaluation	The state adequately defines teacher of record, and has a process in place for teacher roster verification.	
Distributing Teacher Talent Equitably	The state reports school-level data about teacher performance to help support the equitable distribution of teacher talent.	
Principal Effectiveness		The state should require that principal effectiveness is determined, in part, by survey data, and that ineffective principals participate in improvement planning.
Principal Evaluation and Observation	The state requires all principals to be annually evaluated by trained and certified evaluators, and requires all principals to be observed/visited on-site.	
<b>AREA 8: TEACHER COMPENSATION</b>		
Performance		The state should give districts the flexibility to determine pay structures, and discourage districts from tying compensation to advanced degrees or experience.
High-Need Schools and Subjects	The state enables teachers to earn additional pay for working in high-need schools and teaching in shortage subject areas.	
Prior Work		The state should encourage additional compensation for new teachers with relevant prior work experience.
<b>AREA 9: RETAINING EFFECTIVE TEACHERS</b>		
Licensure Advancement		The state should base licensure advancement and renewal on teacher effectiveness.
Tenure		The state should connect tenure decisions to evidence of teacher effectiveness.
Leadership Opportunities	The state supports teacher leadership opportunities.	
Dismissal	The state enables ineffective classroom performance to be a basis for dismissal.	
Layoffs	The state requires districts to consider evidence of effectiveness when determining which teachers to lay off during reductions in force.
