# Teacher Policy Strengths and Areas for Growth Utah

POLICY AREA	UTAH'S STRENGTHS	UTAH'S OPPORTUNITIES FOR GROWTH
<b>AREA 1: GENERAL TEACHER PREPARATION</b>		
Program Entry	The state requires all teacher preparation programs to admit only candidates who have a GPA of at least 3.0.	
Teacher Shortages and Surpluses		The state should publish data on teacher production that connect program completion, certification, and district hiring statistics, and also provide guidance regarding program acceptance numbers.
Program Performance Measures		The state should connect program graduates' student growth data to their teacher preparation programs.
Program Reporting Requirements		The state should hold teacher preparation programs accountable for teacher quality by outlining consequences for programs that do not meet standards, including loss of program approval.
Student Teaching/ Clinical Practice	The state requires that cooperating teachers are selected based on evidence of effectiveness and that the clinical practice experience is at least 10 weeks, full time.	
<b>AREA 2: ELEMENTARY TEACHER PREPARATION</b>		
Content Knowledge	The state requires elementary teacher candidates to pass a content test with individually scored subtests in each of the core content areas.	
Teaching Mathematics	The state's elementary content test includes an independently scored math subtest.	
Teaching Reading		The state should require that: elementary teacher candidates pass a science of reading test to ensure knowledge of effective reading instruction, teacher preparation programs address this critical topic, and candidates are fully prepared to meet the instructional shifts associated with college- and career-readiness standards.
Licensure Deficiencies	Not applicable; the state does not have standalone early childhood certification.	
<b>AREA 3: SECONDARY TEACHER PREPARATION</b>		
Middle School Content Knowledge	The state requires middle school candidates with a middle grades license to pass a rigorous single-subject content test.	
Middle School Licensure Deficiencies		The state should not allow middle school teachers to teach on a K-8 generalist license.
Adolescent Literacy		The state should require that all middle school and secondary candidates are fully prepared to meet the instructional shifts associated with college- and career-readiness standards.
Secondary Content Knowledge	The state requires all secondary teachers to pass a single-subject content test as a condition of initial licensure and to add an endorsement to an existing license.	
Secondary Licensure Deficiencies		The state should require secondary physical science teachers and secondary social studies teachers to pass a single-subject content test for each discipline they are licensed to teach.
<b>AREA 4: SPECIAL EDUCATION TEACHER PREPARATION</b>		
Content Knowledge		The state should require elementary special education teachers to pass the same content test as general elementary education teachers and that secondary special education teachers demonstrate content knowledge in core subjects at the secondary level.
Teaching Reading		The state should require that elementary special education candidates pass a rigorous assessment in the science of reading instruction and are fully prepared to meet the instructional shifts associated with college- and career-readiness standards.

Licensure Deficiencies		The state should require elementary or secondary special education certification.
<b>AREA 5: ALTERNATIVE ROUTE TEACHER PREPARATION</b>		
Program Entry		The state should increase alternate route admissions requirements by requiring a rigorous test or a GPA of 3.0 or higher and requiring all candidates to pass a subject-matter test.
Preparation for the Classroom		The state should require that all alternate route programs prepare new teachers for the classroom through manageable and relevant coursework, intensive mentoring and induction, and a supervised practice teaching experience.
<b>AREA 6: HIRING</b>		
Requirements for Out-of-State Teachers		The state should require evidence of effective teaching during previous employment for licensure reciprocity, and offer a standard license to certified out-of-state teachers without unnecessary requirements.
Provisional and Emergency Licensure	The state does not grant emergency or provisional licenses for more than one year.	
<b>AREA 7: TEACHER AND PRINCIPAL EVALUATION</b>		
Measures of Student Growth		The state should ensure objective evidence of student growth is the determinative factor in teacher evaluations.
Measures of Professional Practice	The state requires that all teacher evaluations include observations and student survey data, and be conducted by trained and certified teacher evaluators.	
Frequency of Evaluation and Observation	The state requires that all teachers are evaluated annually and observed multiple times.	
Linking Evaluation to Professional Growth	The state requires that teachers are supported with adequate evaluation feedback and improvement plans (for ineffective teachers), under a system with four rating categories.	
Data Systems Needed for Evaluation		The state should formalize its definition of teacher of record and its process for teacher roster verification, develop the capacity to link student-level data and teacher performance, and publish teacher mobility data.
Distributing Teacher Talent Equitably		The state should report school-level data about teacher performance to help support the equitable distribution of teacher talent.
Principal Effectiveness	The state requires that principal effectiveness is determined, in part, by objective measures of student growth and survey data, and that ineffective principals participate in improvement planning.	
Principal Evaluation and Observation	The state requires all principals to be annually evaluated by trained and certified evaluators, and requires all principals to be observed/visited on-site.	
<b>AREA 8: TEACHER COMPENSATION</b>		
Performance	The state's performance pay policy rewards effective teachers.	
High-Need Schools and Subjects	The state enables teachers to earn additional pay for working in high-need schools and teaching in shortage subject areas.	
Prior Work		The state should encourage additional compensation for new teachers with relevant prior work experience.
<b>AREA 9: RETAINING EFFECTIVE TEACHERS</b>		
Licensure Advancement		The state should base licensure advancement and renewal on teacher effectiveness.
Tenure		The state should connect tenure decisions to evidence of teacher effectiveness.
Leadership Opportunities	The state supports teacher leadership opportunities.	
Dismissal		The state should enable ineffective classroom performance to be a basis for dismissal, and not allow multiple appeals for teachers who are dismissed.
Layoffs	The state requires evidence of effectiveness to be the primary criterion districts use in determining which continuing contract teachers are laid off during reductions in force.
