INTRODUCTION

The Orange County Public Schools' Instructional Personnel Assessment System is designed to contribute toward achievement of goals identified in the District Plan, support district and school-level improvement plans, and promote actions that are consistent with the district's stated purpose for instructional personnel assessment. CTA Contract: Article X

PHILOSOPHY

The Orange County Public Schools' Instructional Personnel Assessment System is based upon a philosophical commitment to the concept that the professional development of a teacher is a life-long process and that communication between the evaluator and evaluatee is a critical component. The overall purpose of assessment is to improve the quality of instruction and student performance through collaborative conversations and professional development. This purpose can best be achieved by establishing an assessment system comprised of an integrated set of components that include gathering data, sharing information and providing opportunities for professional growth experiences. Contemporary research findings relative to effective practices for the assessment of instructional personnel should be reflected in the activities and techniques employed as this set of system components is implemented.

Please remember an additional component to the assessment system is the option of using the National Board Certification process as the Action Plan for the Professional Growth Plan for continuing contract or professional services contract teachers. See page 4 of this document for details regarding use of the National Board Certification process as the Action Plan for the Professional Growth Plan option.

Two additional noteworthy components in the assessment system are an invitation to parents to provide input to the assessment process and the Individual Professional Development Plan. In order to provide input to the assessment process, each school will include the following statement to be placed in their school newsletter semi-annually: "Our goal is for students to learn and achieve. We invite you to give your input on our instructional program. If you have suggestions that will help our faculty improve instruction or services, please feel free to send them to your principal." This invitation will occur during the first and second semester.

The Individual Professional Development Plan is the result of Florida Statute Chapter 1012.98(4) (5). It is designed to increase professional growth of instructional personnel that links and aligns activities with student and instructional personnel needs as determined by school improvement plans, annual school reports, and student achievement data. The need for any training activity defined in a teacher's Individual Professional Development Plan must be clearly related to specific performance data for the students to whom the teacher is assigned. Plans must include clearly defined professional development objectives and specific measurable improvements in student performance that are expected to result from the professional development activity.

COLLABORATION

The Instructional Personnel Assessment System was cooperatively developed by a representative sample of those who will administer and be assessed through procedures prescribed in the system. The system development team was composed of sixteen (16) persons each selected by the Orange County Classroom Teachers Association, Inc. and the School Board of Orange County, Florida.

TRAINING

An online IPDP tutorial can be found at <http://pdsonline.ocps.net>. Log in using your OCPS username and password. IPDP Tutorial will be listed under Recommended Courses.

ASSESSMENT PROCESS

The Orange County Public Schools' Instructional Personnel Assessment System is based on the Florida Department of Education Educator Accomplished Practices for the Twenty-First Century.

1. Assessment – Uses assessment strategies (traditional and alternate) to assist the continuous development of the learner.
2. Communication – Uses effective communication techniques with students and all other stakeholders.
3. Continuous Improvement – Engages in continuous professional quality improvement for self and school.
4. Critical Thinking – Uses appropriate techniques and strategies which promote and enhance critical creative, and evaluative thinking capabilities of students.
5. Diversity – Uses teaching and learning strategies that reflect each student's culture, learning styles, special needs and socioeconomic background.
6. Ethics – Adheres to the Code of Ethics and Principles of Professional Conduct of the Education Profession in Florida.
7. Human Development & Learning – Uses an understanding of learning and human development to provide a positive learning environment which supports the intellectual, personal, and social development of all students.
8. Knowledge of Subject Matter – Demonstrates knowledge and understanding of the subject matter.
9. Learning Environment – Creates and maintains positive learning environments in which students are actively engaged in learning, social interaction, cooperative learning, and self-motivation.
10. Planning – Plans, implements, and evaluates effective instruction in a variety of learning environments.
11. Role of the Teacher – Works with various education professionals, parents, and other stakeholders in the continuous improvement of the educational experiences of students.
12. Technology – Uses appropriate technology and learning processes.

The recommended components and procedures for the Orange County Public Schools' Instructional Personnel Assessment System have been developed to complement the philosophy established for the system. This system includes components and procedures that provide for the professional development of instructional personnel new to the profession and/or the school district. Special components and procedures are included to enrich the knowledge and skills of experienced teachers toward making professional growth truly a life-long process.

ANNUAL CONTRACT TEACHERS

1. The OCPS Instructional Personnel Assessment Instrument, the Florida Performance Measurement System (FPMS), the Individual Professional Development Plan process (IPDP), and supplemental data gathering strategies and forms will be used as the performance assessment of annual contract teachers.
2. The teacher will be assessed at least once each semester (twice each school year) with one or more observations occurring prior to each assessment. Assessment shall include but not be limited to data collected through the observation process.
3. Reemployed OCPS retirees who hold annual contract status may forgo, if jointly agreed upon by the administrator and teacher, FPMS observation and instead utilize the professional growth plan and process outlined within the CC or PSC assessment process. This is only for returning OCPS teachers and only if jointly agreed upon.
4. Assessment occurring during the first semester will be considered preliminary and the forms are for school work location use only. The preliminary assessment will be used for planning purposes only.
5. Each formal observation shall be followed by an assessment conference held between the teacher and principal/supervisor.
6. At first indication of an area in need of improvement, either the evaluator or evaluatee may initiate the Professional Improvement Plan in order to resolve the area of concern.
7. A Professional Improvement Plan must be written when the following circumstances occur:
 - a. A criterion on the OCPS Instructional Personnel Assessment form is rated as "needs improvement" or "unsatisfactory."
 - b. A teacher requests that a Professional Improvement Plan be written.

8. Teachers new to the district who are eligible for fast track certification will be assessed the same as other annual contract teachers.
9. Failure to show growth on a Professional Improvement Plan may result in an “unsatisfactory” rating on one or more criteria on the assessment form.
10. An “unsatisfactory” rating on one or more criteria on the final assessment may result in the nonreappointment of a teacher.

CONTINUING OR PROFESSIONAL SERVICES CONTRACT TEACHERS

1. The process for the assessment of teachers holding a continuing contract or professional services contract will include the use of the OCPS Instructional Personnel Assessment Instrument, either data collection using the FPMS Summative Observation Instrument, OCPS supplemental data collection instruments or the development and implementation of a Professional Growth Plan, and the Individual Professional Development Plan process.
2. The implementation of the National Board Certification process may be the Action Plan for the Professional Growth Plan. Teachers who withdraw from the National Board Certification process after the Professional Growth Plan has been implemented, after the first 45 days of the school year, will be assessed using either the FPMS Summative Observation Instrument or OCPS supplemental data collection instruments.
3. At first indication of an area in need of improvement, either the evaluator or evaluatee may initiate the Professional Improvement Plan in order to resolve the area of concern.
4. A teacher who selects the Professional Growth Plan option must establish at least one professional growth goal annually within the first 45 days of a school year or assignment to a campus.
5. The Professional Growth Plan goals will be based upon the criteria/indicators on the OCPS assessment form or school improvement plan and will be generated by the teacher and mutually agreed upon by the principal and teacher.
6. Support documentation for the Professional Growth Plan will be used to verify the accomplishment of the goal(s) included in the plan. Documentation will be written and mutually agreed upon when the Professional Growth Plan is developed, i.e., observations, video tapes, student productions, student portfolios, teacher portfolios.
7. Satisfactory implementation of the Professional Growth Plan is based on the completion of the identified strategies as stated in the action plan.
8. When a teacher is participating in the Professional Growth Plan and a change in classroom performance or other problem occurs, a conference will be held to identify a course of action. A Professional Improvement Plan may be written as a result of this conference.
9. When a Professional Improvement Plan is implemented, progress toward accomplishing the strategies on the Professional Growth Plan may be temporarily suspended until the identified problem(s) has (have) been corrected. If improvement in performance does not occur in the time frame established on the Professional Improvement Plan, this may be reflected on the assessment form as a “needs improvement” or “unsatisfactory” rating on one or more criteria. The following year, the teacher will be placed in the formal observation mode using the FPMS summative instrument or other appropriate OCPS observation instrument.
10. Teachers selecting the performance observation mode of assessment shall be assessed at least once each year with one or more observations occurring prior to the assessment. Assessment shall include, but not be limited to, data collected through the observation process.
11. Teachers selecting the Professional Growth Plan mode of assessment shall be assessed once annually at the end of the Professional Growth Plan cycle.

ASSESSMENT CRITERIA

The assessment criteria are statements of job competencies as well as responsibilities. They are to be used as the basis for identifying teacher strengths and areas in need of improvement during the assessment process. All assessment criteria are supported by one or more teacher competencies that include observable indicators. Six major assessment criteria are to be included in the Instructional Personnel Assessment System. A list of these criteria follows:

- I. Classroom Management and Discipline*
- II. Curriculum Knowledge*
- III. Planning and Delivering Instruction*
- IV. Assessment of Student Performance and Individual Professional Development Plan*
- V. Interpersonal Skills
- VI. Professional Responsibilities

*State of Florida mandated assessment criteria areas (Chapter 1012.34, F.S.)

Indicators for consideration as teachers and administrators engage in using the assessment system are shown on the preliminary and final assessment documents (Appendices A & J).

ASSESSMENT SYSTEM FORMS

Two sets of forms have been developed and are available for use as the assessment system is implemented. These forms are identified in the following section. Forms that are required and/or optional for use with the various teacher contract categories, i.e., annual contract (AC) or continuing contract/professional service contract (CC/PSC) are also noted in the following section. Please note that Data Collection Forms cannot be used for final assessment. All instructional final assessments must be completed on the final assessment report. All forms are available at <http://intranet.ocps.net>.

ASSESSMENT RATINGS AND DESCRIPTORS FOR THE PRELIMINARY ASSESSMENT REPORT

GENERAL DIRECTIONS:

The indicators listed below each criterion are meant to give the evaluator best practices indication of criterion competency. In no way do these indicators represent a fixed number for competency achievement. Each criterion is assessed based on total performance. Some indicators may represent more or less importance in evaluating total performance. When determining the overall assessment rating, a teacher may not receive an overall rating lower than the lowest rating in any one category. For example, a teacher may not receive an overall rating of Unsatisfactory if the lowest rating in the six areas is Needs Improvement.

The comment section provides an opportunity for documenting outstanding performance and also for identifying specific needs for improvement. It is highly recommended that the evaluator make comments for each of the six areas and are required for areas shown as Needs Improvement (NI) or Unsatisfactory (U).

At first indication of an area in need of improvement, either the evaluator or evaluatee may initiate the PROFESSIONAL IMPROVEMENT PLAN in order to resolve the area of concern.

An UNSATISFACTORY rating concludes that one is not demonstrating competency in any manner for that criterion and that previous attempts for improvement via the PROFESSIONAL IMPROVEMENT PLAN have failed.

ASSESSMENT RATINGS AND DESCRIPTIONS FOR THE PRELIMINARY ASSESSMENT REPORT

Effective:	Shows competent performance as evidenced by applicable indicators.
Effective with Recommendations:	Shows competent performance with minor recommendations for growth, improvement and/or change.
Needs Improvement:	Shows less than satisfactory performance in one or more applicable indicators.
Unsatisfactory:	Does not show adequate performance in one or more applicable indicators.
Not Applicable:	Evaluatee's job performance cannot be measured by this criterion.
